

## Buy, sell and store precious metals safely and securely

To better serve Albertans, ATB has partnered with Silver Gold Bull to connect our customers with a great experience to purchase or sell their precious metals

Silver, gold, platinum and palladium as bars, coins, wafers and jewelry are often bought by collectors, as well as used for investment purposes and an economic hedge against market uncertainty or currency weakness.

Many Albertans also gift precious metals and jewelry for special events such as Diwali, Chinese New Year, birthdays and weddings.
